

OUR ADVISORS

Altor Equity Partners is the main investment advisor to the Altor funds. The company was founded in 2003 by individuals who have built up a successful track record of advising funds investing in and building Nordic businesses.

Altor Equity Partners focus on the middle market segment for Nordic private equity investments. This distinguishes Altor from many other Nordic private equity advisors which are either smaller local firms in one of the four national markets or have expanded into addressing larger European acquisitions.

Mid 2014, Altor's funds have completed investments in over 40 companies and to that another 60 add-on acquisitions. In a majority of these companies, the previous owners have remained as shareholders, reflecting Altor's strategy to actively seek such partnerships.

Altor works with a strong team of Nordic investment professionals who all have profound international experience in private equity, consulting, investment banking and various industrial sectors. As importantly, the success is dependent on the ability to attract and retain top talent in the portfolio companies and in the Board of Directors – where Altor has built strong relationships with seasoned industry executives who can contribute in building world class companies.
